Thank You For Downloading

This freebie is my way of saying Thank you to all my current and future customers! If you like what you see, please leave feedback! If I can help you with anything please email me at

farrahshipley@wholebrainteaching.com.

This mini-lesson can be used whole group or in math stations! If your students are not ready for regrouping, simply take out those cards and only have them complete the non-regrouping problems! Again, thank you for you download!

Enjoy!

Laminate and cut out the cards! Students will match the card with the correct letter on the record sheet and record numbers from die to create the double digit problem! Students will then complete the problems according to the method you have taught in your classroom!

Letters A-F No Regrouping

Letters G-L Regrouping
